Tmax <sup>1</sup>	<b>2.8 hrs</b>	4 hrs
Switch	<b>Topical - No washout required</b> <b>Injection - T levels at trough or return of symptoms</b>	
Packaging	<b>50mL tube. 100 days using 0.5mL once daily</b>	50mL tube. 25 days using 2mL once daily.
PBS Authority price per month	<b>PBS Authority General patient \$9.00 Concession \$2.19</b>	non-PBS
Private prescription cost per month***	<b>\$31.87</b>	\$127.46

## Switching to Scrotal

T gels cannot be applied to genital areas because high alcohol content, may cause scrotal irritation.<sup>4</sup>

**Injection**  
T levels at trough or return of symptoms

**Topical**  
No washout period required

**Scrotal Dosing**

Recommended starting dose is 25mg (0.5mL)

- Titrate up or down by 12.5mg (0.25mL) increments following serum blood test, if required.
- Two serum testosterone levels should be taken at 3 hours (peak) and 24 hours (trough) after the 15th day of starting treatment.
- Do not exceed 1mL (50mg) dose per day.
- The scrotum is not required to be shaved prior to application.
